Signed by: Clinical Supervisor (s) or Educational Supervisor (s), or College Tutor (s)	date:	

Unit of training:	Trainee:
--------------------------	-----------------

Assessment tools Guidance

It is important to note that a minimum of one Anaes-CEx, DOP and CBD should be undertaken for each subspecialty unit of training, ensuring wide sampling. A general overview of communication skills, attitudes and behaviour will be considered by trainers before signing off each unit of training (this is in addition to the annual formal assessment of these issues).

Comments on Unit of Training:

(all trainee and trainer feedback welcome)

If an unsatisfactory assessment is given, examples of the reasons for this must be given:

(A copy of this assessment should be retained by the trainee for inclusion in their training portfolio and a copy should be kept in the trainee's file held by the School of Anaesthesia).
